New Business:

The Committee reviewed the current Regulation 7. Mr. Kaminski voiced concerns, and the other members agreed, that potentially dangerous drugs intended for animal use only, could be diverted for human use without valid authority. The Committee reviewed current federal and State law including the definition of drugs and prescription drugs and 24 Del. C. §2523 exemptions. Members thought that current law already permits Board oversight, licensing and inspection. The Committee determined that Ms. Reardon should review the above law and determinations by the members. Future Committee meetings will include non-pharmacy veterinary oriented personnel.

The meeting adjourned at 11:00 AM.

Respectfully submitted,

David W. Dryden, R.Ph., J.D.
Secretary
